Introduction

Set sail on an adventure of a lifetime on this Galapagos Islands Cruise. The Galapagos Islands offer some of the best wildlife encounters and experiences in the world, teeming with both land and sea life you are unlikely to see in such abundance anywhere else on earth! From walking alongside the island's iconic giant tortoises, snorkelling with sea turtles and climbing to island high points for stunning panoramas this adventurous cruise holiday showcases the very best of what the Galapagos has to offer. A photographer's paradise, the islands give a unique opportunity to capture wildlife up close on camera. From iguanas basking on the white sandy beaches, nesting seabirds, waved albatross, blue-footed boobies, penguins, sea lions, cormorants, and innumerable tropical fish and birdlife - the opportunities are endless.

We sail the islands aboard the first-class yacht, the Monserrat. Island-hopping in style we are treated to fine local and international gastronomy prepared by professional chefs onboard. Whether using the boat's observation deck, walking on the islands, or taking a panga ride into a hidden cove, our expert naturalist guides take us to the best spots and share their tips and knowledge for getting the most out of each experience.

The Monserrat Yacht alternates between two stunning 8 day itineraries, and while both of these options offer an incredible experience and cover the key wildlife experiences you would expect from the Galapagos, they visit different islands which makes for subtle distinctions in the flora and fauna you will encounter. So whether you are more interested in the classic Galapagos experience of the southern islands or the unique birdlife on the more remote and pristine northern islands, you can be sure you won't be missing out!

The Southern Itinerary

This itinerary combines the Central and Eastern Islands and has the perfect combination of surface, marine and air wildlife along with beautiful landscapes and unique species. We explore the highlights of Santa Cruz, Rabida, Bartolome, Santa Fe, San Cristobal, Espanola, and Floreana islands. Taking in some of the best snorkelling spots, white sandy beaches, and day walks in the Galapagos. A splendid balance of activity and adventure with a wide spectrum of the available wildlife experiences throughout the islands, all from the comfort and luxury of the Monserrat Yacht. Wildlife likely to be seen: Galapagos Giant

Tortoise, Barn Owls, Palo Santo Trees, Pelicans, Galapagos Penguins, Sea Lions, Sea Turtles, a huge variety of fish in shallow and deep water snorkelling spots, Land Iguanas, Red-billed tropicbirds, Swallow-tailed Gulls, three species of Boobies, two species of Frigate Bird, Flamingoes, Blue-Footed Boobies, Reef Sharks, Waved Albatross (April and December) and Rays.

It is important to note that itineraries in the Galapagos are always subject to change due to weather conditions, wildlife breeding, National Park Regulations or any unforeseen situation.

Is this holiday for you?

A cruise is an excellent way of getting around the Galapagos and experiencing the best it has to offer. Staying aboard the yacht you will sleep in a twin/double cabin with modern en-suite facilities. The Upper deck cabins have a window to allow excellent views, whereas on the lower deck the cabins have portholes to ensure good natural light. There are many communal areas aboard the yacht, from the interior lounge and dinner room to the sun and observation decks, complete with sun loungers. Getting from the yacht to land is done by panga boat, a motorised inflatable dinghy allowing closer access to shore. There is plenty of opportunity for swimming and snorkelling and the guides will point out the best spots. Simple walks along the beaches and up small hills on the islands offer another excellent way of enjoying the wildlife, but no prior walking experience is necessary.

Meal Plan

All meals when on board the Monserrat Yacht are included. For the 2 nights on the mainland the hotel is booked on a bed and breakfast basis.

Food & Water

All meals are provided aboard the Monserrat. The professional chef and kitchen staff will prepare a mix of local and international food to a high standard to be enjoyed either on the boat's sun deck or the interior dining room. A substantial breakfast, warm lunch and dinner will be served each day. There is no set menu as the chefs creatively adapt to the local produce on offer and the needs of the group. Most dietary needs can be met if the chefs are given enough notice (please inform us at time of booking).

The chefs will also provide a cooking class each departure, where guests learn how to prepare Ecuadorian style Ceviche – a traditional delicacy in which raw fish is cured in citrus juices - on the sun deck.

Whilst on board the Monserrat, special diets and food allergies can be catered for. Guests will receive a questionnaire before departure, allowing the crew to prepare and coordinate all requests in advance.

Accommodation

For the 2 nights on the mainland we stay in a lodge on the outskirts of Quito, situated 20 minutes from the Old Town. During the Galapagos cruise we stay 7 nights on the Monserrat Yacht. All cabins are modern, en-suite and have air conditioning. There are a mixture of twin and double cabins. The 6 upper deck cabins all have windows while the 4 lower deck cabins have portholes with great interior natural light.

The Monserrat underwent a complete renovation in September 2025. All guest cabins and social areas now feature elegant new furnishings, and the yacht now offers a Jacuzzi on the sundeck, an outdoor dining area, and two comfortable lounge spaces.

If you are travelling by yourself, you will be paired up with another single client of the same sex. Single rooms are available for a supplementary cost. If you are planning on extending your holiday additional nights at the group hotel are available on request.

Group Leader & Support Staff

During the cruise you will have the services of two professional naturalist guides, an on board Concierge and 12 crew members.

Altitude

This holiday does not involve any significant ascent to altitude and we would not expect any altitude issues with this trip.

Park Fees & Permits

The Ecuadorian government currently levies a Galapagos Islands Park entry fee of $200 USD per person . This is payable at the airport upon arrival in the park. It is not included in the cost of the tour, and must be paid in CASH. This fee funds Park maintenance and supervision in Galapagos, as well as ecological study, conservation and infrastructure development in Ecuador's other National Parks. Entry fees and the funds they generate for the National Park System are among measures taken by the Ecuadorian government to protect its natural heritage.

Spending Money

You will need $100 in cash ($200 from 1 Aug 2024) for the Galapagos park fees + $20 Transit Control Cards fee in cash on departure from Quito Airport to the Galapagos. Additionally to these essentials, approximately £350-400 per person (or equivalent in US dollars) should be allowed for tips, soft drinks, snacks, non-included meals and miscellaneous expenses. Alcoholic drinks, souvenirs, and optional activities are additional so you may wish to budget for these.

You should take your money in USD dollars to change into local currency. There will be the opportunity to change money at the airport and during the holiday. You will also be able to get currency from bank ATMs. Please be advised that slightly torn notes, notes that have been heavily marked or are faded may be difficult to exchange. It is best to bring notes in fairly good condition, in denominations lower than 100 USD. Credit cards are useful and it is a good idea to carry one in case of emergency.

Guidance on Tipping

Tipping is expected, although not compulsory, and is an expression of satisfaction with the persons who have assisted you on your holiday. As a guideline a per traveller tip of USD 200-400 per week for your guide and boat crew is suggested. Further smaller tips for local boat staff, hotel staff and guides on any excursions should be accounted for as well.

Baggage Allowance

For this holiday you should take one piece of luggage and a daypack.

For the domestic flights to the Galapagos you are allowed a maximum of one piece of luggage per person weighing a maximum of 23 kg, plus one carry-on piece weighing a maximum of 10 kg.

For international flights please check your baggage allowance with your airline.

A good size daypack is also essential. If you don't wish to take all of your luggage with you to Galapagos, please ensure you have an extra bag you can leave behind at hotel storage and pickup on your return.

Please note that Galapagos is a protected National Park so your luggage will be checked before arrival and departure to and from the islands. Don’t bring any food, seeds or other organic material that could affect the delicate ecosystem of the islands.

Group Size & Holiday Status

For each holiday there is a minimum number of participants required to enable it to go ahead. Once the minimum number is reached, the trip status will change from 'Available' to 'Guaranteed to run'. You can check the trip status for each departure in the ‘Dates and Prices’ table. Other than in exceptional circumstances, we will not cancel a trip once it has achieved this guaranteed to run status so you are free to proceed with your international flight booking and other travel arrangements.

All other nationalities should check their government websites for relevant information.

KE treat the safety and security of all clients as the most important aspect of any trip we organise. We would not run any trip that we did not consider reasonably safe. Should the FCDO advise against travel for any reason, we will contact everyone booked to travel to discuss the situation. We receive regular updates directly from the FCDO and are in constant touch with our contacts on the ground. If you have any questions about government travel advice, please call our office.

Single Use Plastic

KE do not encourage the use of single use plastic items. We are ensuring that our agents all over the world are working together to reduce the problem and educate those around them. We are leading by example in our KE office by reducing our plastic use.
